

**STOP THE NHS
CORPORATE
TAKEOVER
BILL!**

The government is trying to force through its Health and Care Bill - a set of deeply damaging reforms that would bring **American-style healthcare** to the NHS.

These reforms would give private healthcare companies - such as Virgin and Serco - control over our NHS, by giving them a seat at the table when budgets are set and decisions are made about the kind of healthcare we as patients will receive. Under the plans, there will also be even less scrutiny over contracts awarded to corporations.

It's clear that the Health and Care Bill is, in reality, an **NHS Corporate Takeover Bill**. Critical votes on the bill are expected in a matter of weeks. We need to take urgent action to protect the NHS from this corporate takeover!

Here's what you can do:

- **Contact your MP** today and demand that they oppose the Health and Care Bill
- **Sign the petition** to stop the bill:
